

	Lockhart Review recommendation	How the issue is addressed in the bill
53	In view of the fast-moving developments in the field, and the range of amendments proposed herein, the two Acts should be subject to a further review either six years after royal assent of the current Acts or three years after royal assent to any amended legislation.	The bill includes a new clause 25A (in the PHC Act) and a new clause 47A (in the RIHE Act) that requires that a review be undertaken.
54	There should be ongoing public education and consultation programs in the areas of science that are relevant to the Acts.	No changes to legislation required.

I commend the bill to the Senate.

I table the explanatory memorandum and seek leave to continue my remarks later.

Leave granted; debate adjourned.
